

## **Renewing Medication Forms Each School Year**

A medication authorization form must be filled out **EACH** new school year for any prescription or non-prescription medications that your child will require in school. No medications may be in the school setting, whether it be prescription or over-the-counter **UNLESS** your physician has filled out this form. All over-the-counter medications must be in the original container unopened. All prescriptions medications must have a current label that matches up to the order written on the medication authorization form. An adult must do transportation of ALL medications to and from school. **Children are not allowed to carry medications to and from school. This is for the safety of your child as well as the other children. We ask that you please follow this policy (FCPS regulation 400-23).** You can obtain medication authorization forms from the health room or off the FCPS.org website. There is a specific form that is for Epipens and diabetic medications which is on the FCPS.org website also.
