

School Health Services

Medications and Treatments

Students are encouraged not to take medication during the school day.

If it is necessary for a student to do so, the parent/guardian(s) must provide a written order from the student's health care provider for all prescription and over-the-counter medications.

Medications must be provided to the school in the pharmacy bottle and correctly and completely labeled.

Medications sent in envelopes, plastic bags or daily reminder containers **cannot** be administered.

Any treatment required by the student also requires a written order from a health care provider.

Please contact the school as soon as you know that your student requires a treatment so appropriate arrangements can be made.
